**Course #20**  
**Basic to Intermediate**  
**Level**

If you are like most photographers, you probably do a lot of your photography outdoors in natural light. Randy will

show you how to photograph in the shade or bright sun. You will learn which light modifier (scrim, soft box, umbrella, reflector, etc) you should use in each situation. And you will come away with a deeper understanding light, how to use it, and how to control it.

Class Topics include

- Simple posing ideas that will flatter your subjects
- On location fill flash
- Set design with containerized plants
- Beautiful Outdoor Portraits in small spaces
- Finding great light outdoors
- How to use "Constant Lights" in creative ways

Randy will show you how he thinks about light and how he

uses natural elements to create depth in his images. Using models and photographing each other, this hands-on class will give you the skills you will need to take your photography to the next level.

Randy Kerr has been a pro since 1979, and has created images in 27 countries. He has photographed state, national and global politicians and public servants as well as Lady Bird Johnson, Laura Bush, Willie Nelson, Clint Black, Bob Bullock and several Texas governors. He has done work for The History Channel, Time Warner, Dell Computers, Samsung, the Texas State Museum and more.
